GRENADIER

BUILT FOR MORE.

INEOS CAPABILITY. MOTORCRAFT CRAFTSMANSHIP.

The INEOS Grenadier and Quartermaster are built for real-world capability, with rugged engineering and purposeful design at their heart.

Motorcraft brings specialist vehicle conversion, composite construction and premium overland body expertise to that foundation.

Together, these qualities create exciting possibilities for commercial users, emergency services and those who want to travel beyond the ordinary.

GRENADIER

MORE BED. MORE POSSIBILITIES.

TWO CAB OPTIONS. A WORLD OF APPLICATIONS.

Our Single Cab and Extra Cab concepts reconfigure the rear of the Quartermaster cab to create valuable additional load-bed length.

Both are designed to accommodate the vehicle's existing batteries, electronics and essential systems, while maintaining its recognisable design language.

The extra space opens the door to flatbeds, extended tubs, specialist service vehicles and overland habitation bodies.

GRENADIER

SINGLE CAB. MAXIMUM POTENTIAL.

A SHORTER CAB. A BIGGER OPPORTUNITY.

The Quartermaster Single Cab conversion removes the rear seating and rear cab section, replacing it with a purpose-designed fibreglass bulkhead that accommodates the original batteries and electronics.

The result is a significantly extended rear platform, ready for a wider choice of bodies and specialist applications, without losing the vehicle's unmistakable Quartermaster identity.

PRICE STARTING AT £12,000*

EXTRA CAB. EXTRA FLEXIBILITY.

THE PRACTICAL MIDDLE GROUND.

Our Extra Cab conversion uses the same core approach as the Single Cab but retains additional enclosed space directly behind the front seats.

It provides useful secure cabin storage while still unlocking a longer rear load area. An ideal compromise for customers who need both everyday practicality and the capacity for a more substantial rear body.

PRICE STARTING AT £14,400*

QUARtermaster REAR CANOPY

ADDED SECURITY. SEAMLESS STYLE.

A purpose-designed fibreglass canopy that enhances the Quartermaster's load-bed practicality while respecting its original styling.

It creates protected, enclosed storage for tools, equipment and adventure gear, with a robust finish suited to life on and off the road.

Available in textured Raptor Black or a custom RAL colour to suit your vehicle and application.

PRICES STARTING AT £3,600*

*Special Introductory offer – usual price from £5,994

OVERLAND HABITATION UNIT

A SMALLER FOOTPRINT. BIGGER ADVENTURES.

Everything Motorcraft understands about premium overland living, developed in a more compact habitation body for the Quartermaster platform.

Designed for adventurous weekends and spontaneous escapes, it combines carefully considered comfort, storage and self-sufficiency with a vehicle capable of reaching places conventional campers cannot.

Your own basecamp, wherever the road ends.

FURTHER DEVELOPMENT OF THE QUARTERMASTER

Quatermaster Pickup

A refined take on the traditional pickup, featuring an extended, factory-style rear tub that integrates seamlessly with the Extra Cab.

Combining clean lines, rugged construction and everyday practicality, it's equally at home on the open road, the farm or further off the beaten track.

Quatermaster Utility

Designed with functionality at its core, the Utility features a robust aluminium flatbed with fold-down sides for easy loading and maximum accessibility.

Ideal for agricultural, commercial and expedition applications, it's a hardworking, versatile solution with the durability and distinctive styling you'd expect from Motorcraft.
